

Jo Klein
The University of North Carolina at Greensboro

September 19, 2019

Dear Jo,

Thank you for participating as a peer reviewer for the Geography section of *Resources for College Libraries*.

Resources for College Libraries (RCL) is an academic database developed by *Choice*, a publishing unit of the Association of College & Research Libraries, in partnership with ProQuest. RCL is regularly updated by experienced selectors and identifies over 95,000 essential titles for undergraduate libraries and workforce training programs. A critical aspect of the project is that each subject collection is comprehensively assessed by external referees. This peer review is central to producing a high-quality database and also a time-consuming and demanding task for the referee.

As a reviewer for Geography, you provided constructive feedback—from specific title recommendations to scope and taxonomic revisions—on how best to improve this subject area in the future. Your contributions have been critical to the credibility of RCL and you are to be commended for the expertise and attention you devoted to the project.

It is recommended that you retain this letter as record of your work and note your scholarly contribution in your CV or professional portfolio as:

Reviewer. *Resources for College Libraries*. Geography bibliography, summer 2019.

On behalf of the Geography editor and the *Resources for College Libraries* Editorial Board, I thank you for your valuable assistance in evaluating the core subject collection.

Sincerely,

Anne Doherty
Project Editor, Resources for College Libraries
